REPUBLIC OF TÜRKİYE
SÜLEYMAN DEMİREL UNIVERSITY
FACULTY OF HEALTH SCIENCES
STRATEGIC GOALS AND TARGETS

STRATEGIC GOALS		STRATEGIC TARGETS	
Goal 1	To improve the quality of undergraduate and graduate education and teaching to an international standard	**Target 1**	Completing the classroom and laboratory infrastructure of all departments of the Faculty of Health Sciences
		Target 2	Meeting the educational equipment (computers, projectors, etc.) and laboratory equipment needs of all departments of the Faculty of Health Sciences
		Target 3	Increasing the number of nationally and internationally published textbooks in the library and the resources for accessing information electronically
		Target 4	Obtaining accreditation for the Department of Nursing of the Faculty of Health Sciences and structuring the accreditation work of the other departments
		Target 5	Reducing the number of students per teaching staff member to 20
		Target 6	Improving the educational and social services offered to students and increasing student satisfaction
		Target 7	Organizing scientific events at the national and international level
		Target 8	Establishing education-oriented collaborations at the national level
		Target 9	Selecting and implementing educational models that will ensure students' professional success
		Target 10	Carrying out at least one activity every year aimed at developing students' social awareness
		Target 11	Ensuring that the number of teaching staff of the Faculty is at least doubled
Goal 2	To produce evidence-based knowledge and technology that contributes to science and to transfer it into practice	**Target 1**	Ensuring the participation of faculty members in international exchange programs
		Target 2	Increasing the number of scientific meetings organized by our Faculty (organizing at least two meetings/seminars/courses/symposia, etc. per year)

STRATEGIC GOALS		STRATEGIC TARGETS	
Goal 3	To improve the quality of the scientific research conducted	**Target 1**	Carrying out work within the scope of the Statistics Unit and the Foreign Language Support Unit established within the University
		Target 2	Ensuring that each teaching staff member takes part in at least one project per year as project executive or project manager
		Target 3	Ensuring that the scientific research conducted by faculty members is published in journals covered by international indexes
		Target 4	Supporting each faculty member in conducting original, high-quality research so that they can receive at least one scientific award at the national, and preferably international, level
		Target 5	Increasing the number of research projects conducted in our Faculty by 5% each year
		Target 6	Ensuring that at least 40% of the teaching staff working in our Faculty participate in national and international scientific events each year with support from the university budget
		Target 7	Increasing the number of national and international publications by 10% each year
		Target 8	Increasing the number of faculty members serving as reviewers or scientific board members of a scientific journal by 10%
Goal 4	To develop institutional identity and culture	**Target 1**	Increasing the number of health, counseling and educational services offered to the community
		Target 2	Increasing the number of social, cultural and artistic events open to the public and organizing them
		Target 3	Carrying out joint academic, administrative and technical work with external stakeholders
		Target 4	Increasing the number of health, counseling and educational services offered to the community
Goal 5	To complete the development of internal and external stakeholders (students, academic staff, administrative staff and the community)	**Target 1**	Developing the students' learning environment in line with contemporary education
		Target 2	Supporting students' career planning
		Target 3	Organizing social events that will increase communication and interaction among internal stakeholders
		Target 4	Increasing internal stakeholders' opportunities to access information on plans, programs and procedures
		Target 5	Improving the educational services offered to the community
Goal 6	To increase the national and international recognition of the Faculty	**Target 1**	Carrying out activities to make the Faculty of Health Sciences recognized nationally and internationally
Goal 7	To ensure the development of human resources	**Target 1**	Increasing employee satisfaction by 10% each year compared with the previous year
		Target 2	Providing the necessary training opportunities (computer skills, communication skills, foreign languages, etc.) to staff in our Faculty who need them in the relevant field
		Target 3	Organizing events to increase social interaction among Faculty employees
Goal 8	To improve community health services	**Target 1**	Providing health education in primary and secondary schools every year and ensuring its continuity
		Target 2	Establishing health education centers in our Faculty
		Target 3	Developing the infrastructure for providing consultancy services in health care and management services

STRATEGIC GOALS		STRATEGIC TARGETS	
Goal 9	To ensure the improvement of the physical facilities	**Target 1**	Allocating a separate, dedicated faculty building to the Faculty of Health Sciences
		Target 2	Planning the current faculty building in consideration of the departments' needs
Goal 10	To develop financial resources	**Target 1**	Carrying out work aimed at securing financial resources from external stakeholders
		Target 2	Organizing national and international scientific events
Goal 11	To establish an organizational culture in the Faculty	**Target 1**	Organizing special days related to the Faculty every year
		Target 2	Creating Faculty symbols
		Target 3	Establishing Faculty ethical rules
