DERSLERİN İZLEMİ

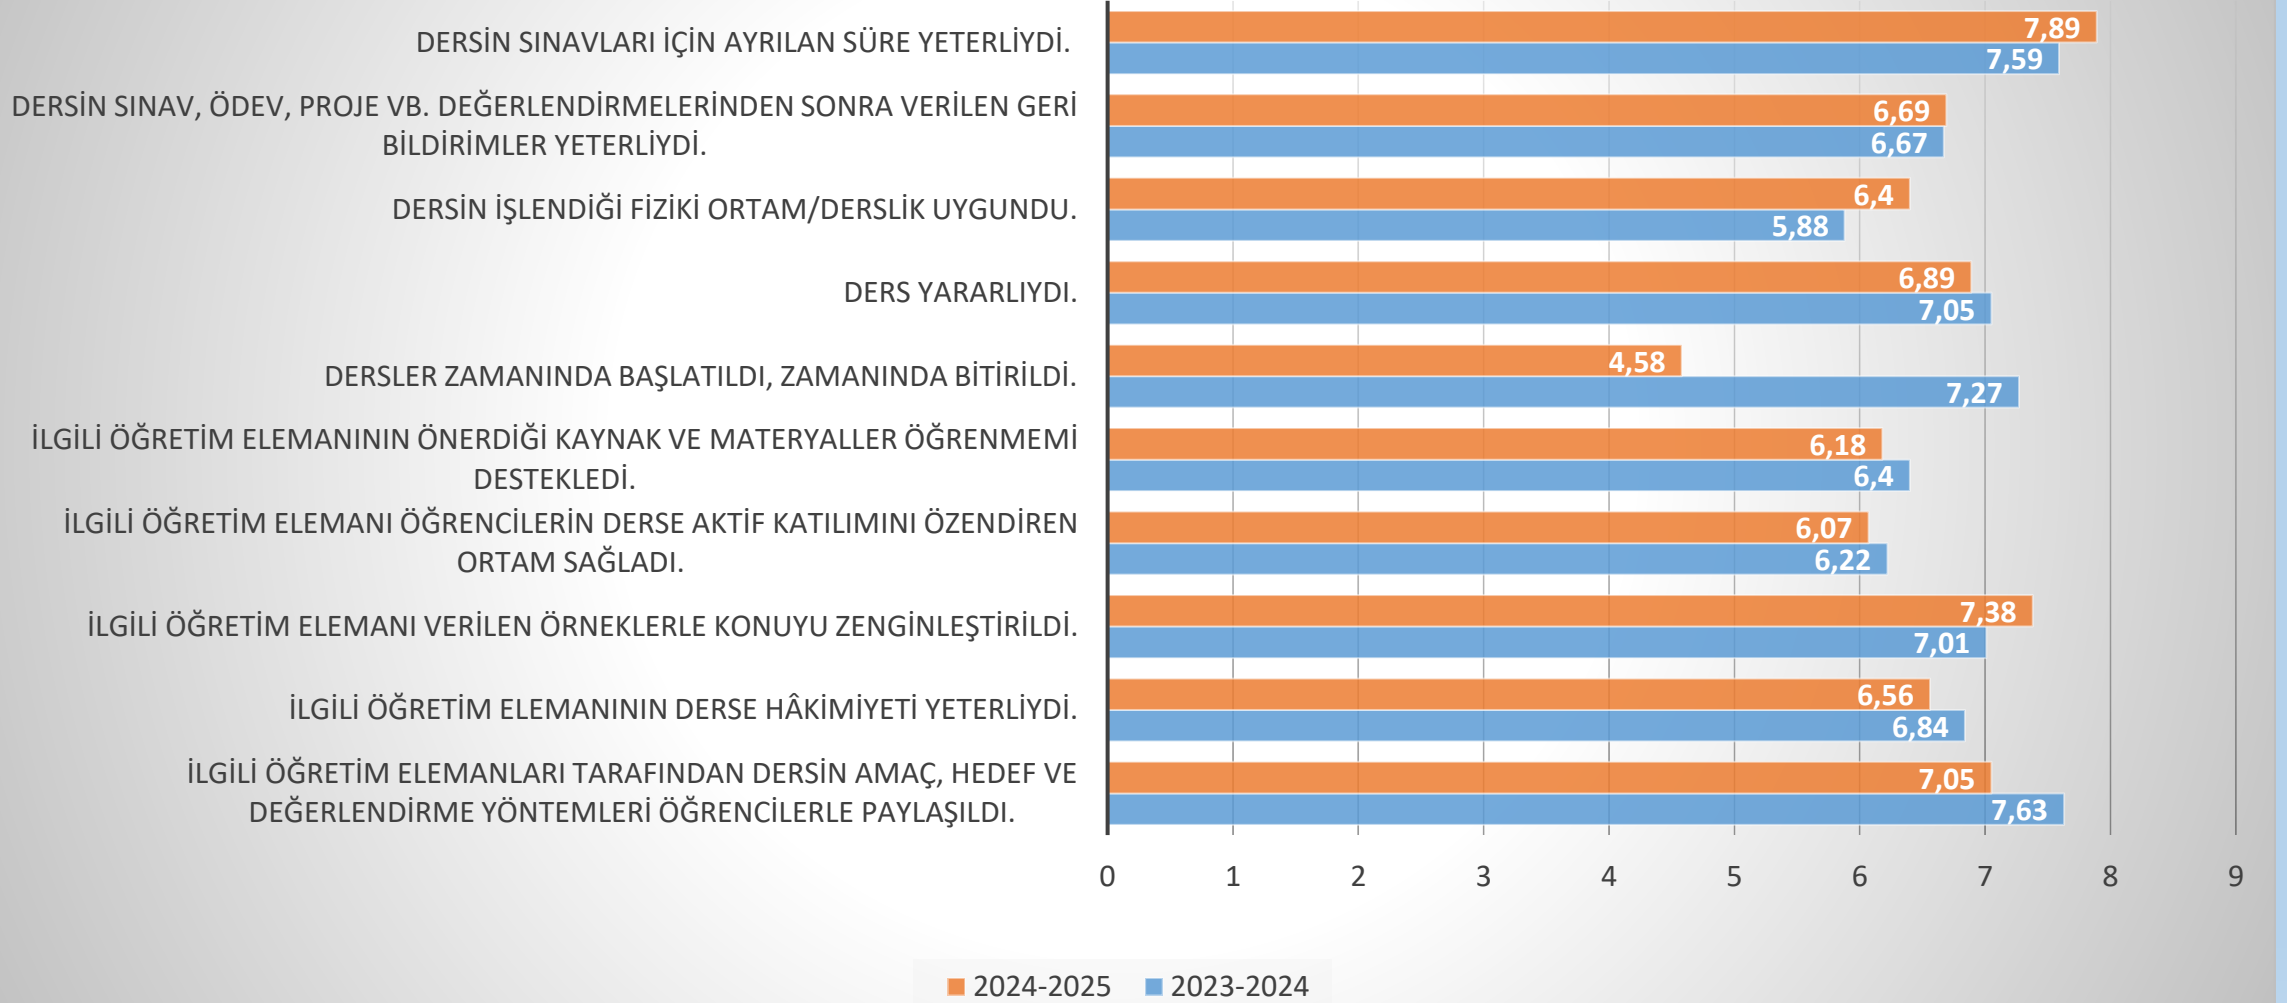

Ölçme Değerlendirme Komisyonu tarafından her yıl güz ve bahar yarıyılının sonunda ders değerlendirme toplantıları yapılmaktadır. Bu izlem raporu, 2023-2024 ve 2024-2025 eğitim-öğretim yılı güz döneminde yer alan ders değerlendirmelerini kapsamaktadır.

Bu izlem raporu iki bölümden oluşmaktadır. İlk bölümde, hemşirelik programında yer alan teorik derslere ilişkin değerlendirmeler bulunmaktadır. İzlem raporunun ikinci bölümünde ise hemşirelik programında yer alan uygulamalı derslere ilişkin değerlendirmeler yer almaktadır.

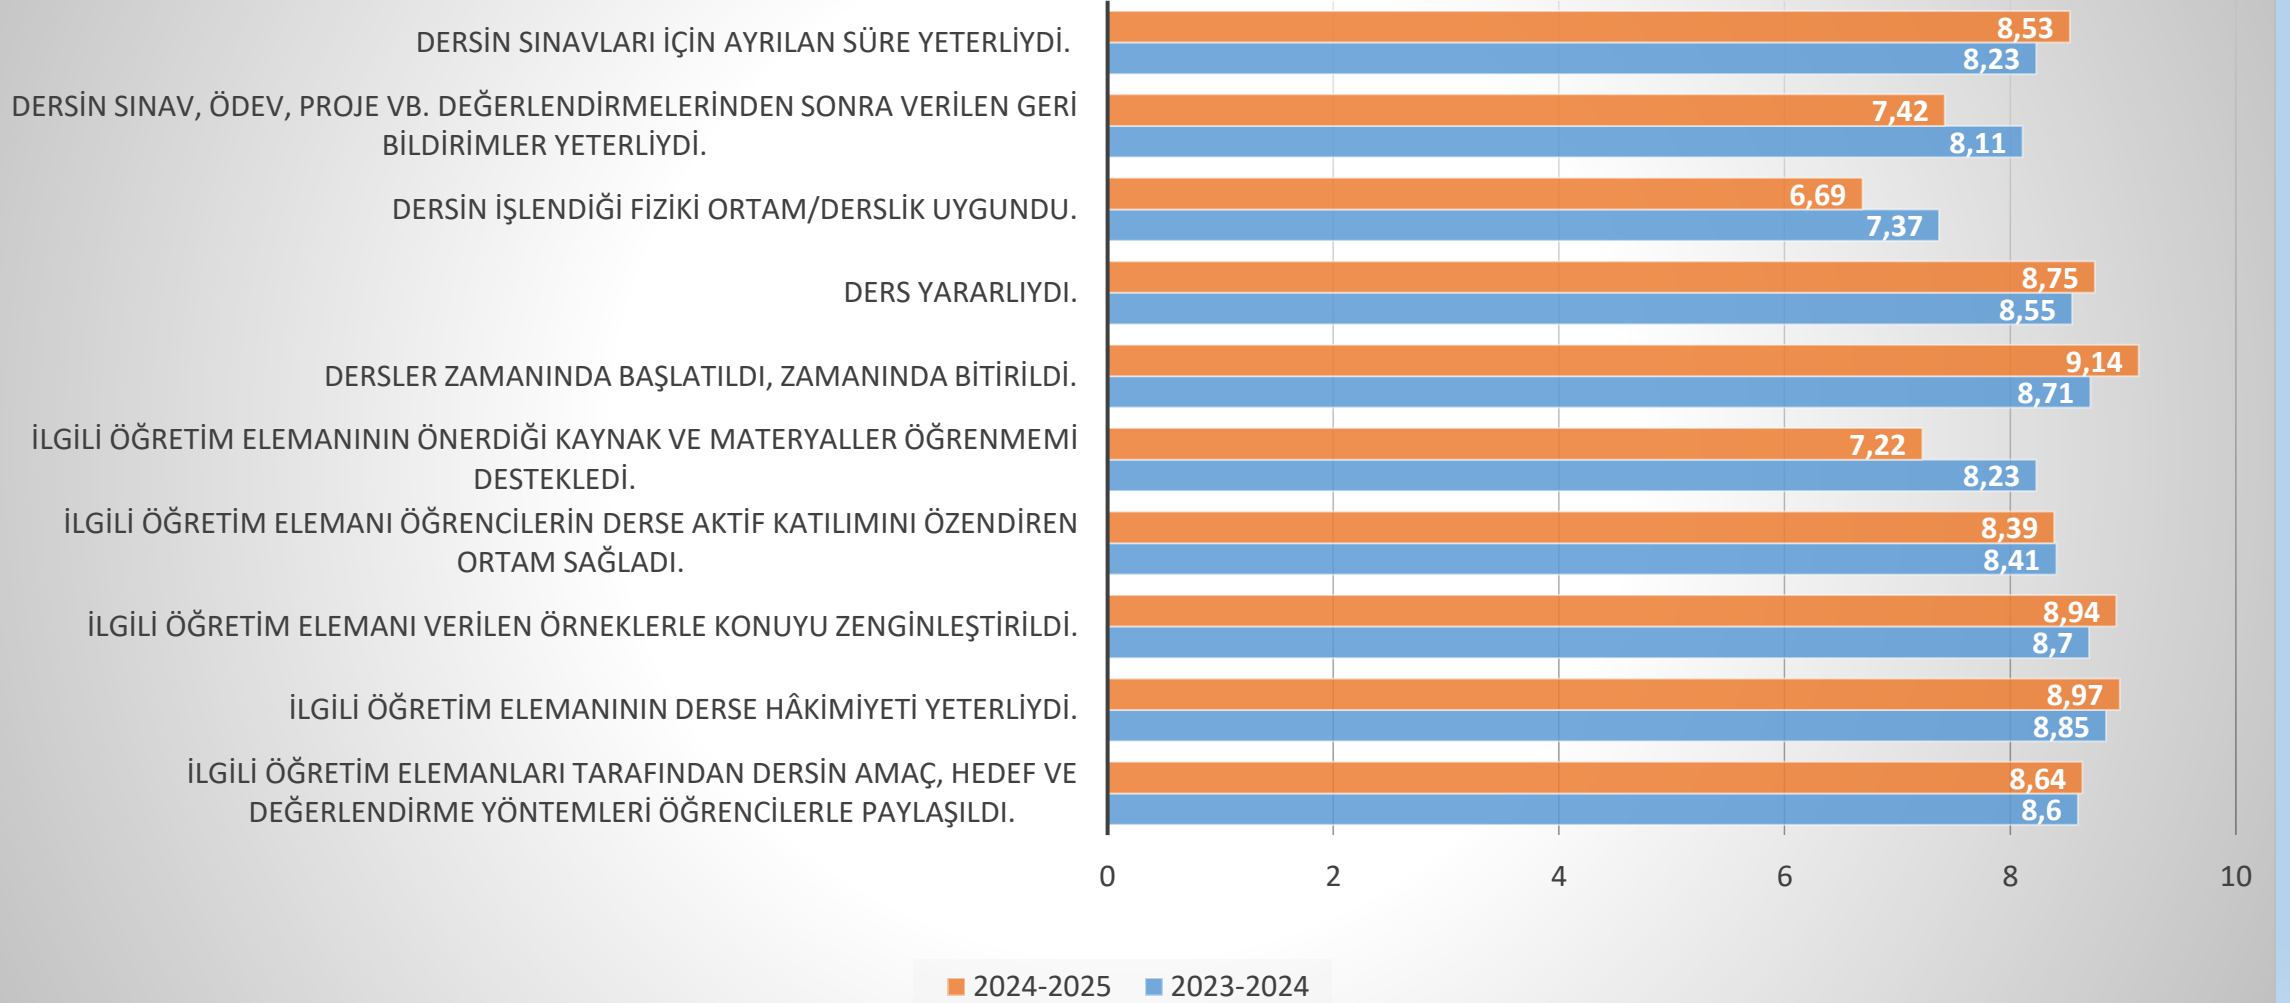

Ders değerlendirmelerinden elde edilen sonuçlar doğrultusunda, ilgili dersten sorumlu anabilim dalları ve öğretim elemanları tarafından iyileştirmeler planlamakta ve/veya uygulamaktadır.
